Interval Measurements Men (revised)

	XS	S	M	L	XL	XXL	XXXL
A - Body length	163-171	168-176	173-181	178-186	183-189	186-192	189-195
B - Chest	86-91	91-97	97-104	104-111	111-118	118-126	126-134
C - Waist	73-78	78-84	84-91	91-99	99-108	108-117	117-126
D - Hip	88-93	93-99	99-106	106-113	113-119	119-125	125-131
E - Inseam	75-79	78-82	81-85	84-88	87-90	89-92	91-93

A - Body height

B - Chest: Measured with the arms hanging down by the sides.

C - Waist: Measured at the narrowest point.

D - Hips: Measured at the widest point.

E - Leg length: Measured on the inside leg, from the crotch and down to the floor.

Using your own body measurements, you will see which size is best suited to you, but don't forget to consider whether you prefer tight or loose-fitting garments. Occasionally a garment you have bought won't fit, as you have based your decision on other measurements than those we use in our diagram. We therefore recommend that you always try the garment on first.

Very few people will match the diagram perfectly. Leg length in particular can vary greatly and is difficult to standardise. Several of our trousers are therefore available with short or long trouser legs. To be specific, either 5 cm shorter or 7 cm longer.
